The **Heinrich-Böll-Foundation** is the Green political foundation. We see ourselves as a think tank and part of the globally active Green political network which now includes more than 3.000 alumni and 1.000 current scholarship holders. We are based in the Federal Republic of Germany, yet we are an international actor in both ideal and practical terms. Our main tenets are ecology and sustainability, democracy and human rights, self-determination and justice. We place emphasis on gender democracy, social emancipation and equal rights for women and men. We are also committed to equal rights and participation for cultural and ethnic minorities. Our namesake, the writer and Nobel Prize laureate Heinrich Böll, personifies the values we stand for: defence of freedom, civic courage, tolerance, open debate, and the valuation of art and culture.
